TEACHER AND PARENT CATALOGUE

Our resources have been developed with the kiwi classroom in mind and thoroughly tested by me, other teachers and children. They are practical, bright and engaging for young learners. We also stock a small selection of teaching resources developed by other companies that I personally use and am happy to recommend to other teachers.

It is a founding principle of what we do that we use eco-friendly and ethical ways of making, storing and sending out our resources as much as possible. All our own products are made here in Aotearoa by local small businesses.
